### Work Experience

#### Development Engineer

**osapiens Services GmbH, Mannheim, Germany (June 2022 - Present)**

- Delivered end-to-end features in React/TypeScript projects using MUI, integrated AI models (OpenAI, Claude, Gemini) to accelerate workflows while ensuring clean, maintainable code.
- Developed backend solutions and integrated RESTful APIs, Implementing unit and integration testing with Jest.
- Focused on code refactoring and reviewing, ensuring adherence to coding standards.
- Optimised UI/UX components on top of Material UI, and Styled Components, collaborating with UI/UX designers for consistency.
- Actively contributed to development discussions and ensured documentation of key features and requirements.

#### Full-stack Javascript Developer

**Strassner Informatik GmbH & Co. KG, Lampertheim, Germany (Oct 2020 - May 2022)**

- Designed and implemented a secure login flow using challenge request authentication with JavaScript and Node.js.
- Developed DC/D3 js charts and integrated them with customised SAP modules using JavaScript.
- Created a Progressive Web App (PWA) for our existing application and contributed to structuring new customised SAP modules.

#### UI/UX Designer

**InfraView GmbH, Mainz, Germany (Nov 2019 - Sep 2020)**

- Designed and developed the company website to enhance brand and service visibility using Gatsby.
- Assisted in documenting team-defined standards to maintain consistency.
- Conducted research and assisted for icons consistency across applications.

#### Hochschule Darmstadt, Germany

M.A., Leadership in the  
Creative Industries  
2021

**Bharathiar university,**  
**Coimbatore, India**  
M.Sc., Software Systems  
2013

---

### Languages

- **English** (Fluent)
- **German** (Intermediate)
- **Tamil** (Native)

### UI/UX Developer

**ConverSight.ai, Coimbatore, India** *(Jan 2019 - Sep 2019)*

- Improved user experience for mobile and web applications by providing insights using voice and text input, similar to Alexa. Conducted product requirements analysis for existing application pages to enhance user experience.
- Responsible for the overall user experience design and development for web and mobile applications.
- Continuously collaborated with product management and external development teams throughout the design process.
- Provided visual design support for the corporate webpage, mobile app, GIF creation, icon creation, marketing campaigns, and business cards.

### Software Engineer

**Adapt.io, Coimbatore, India** *(Apr 2017 - Dec 2018)*

- As a founding team member, I played a hybrid role for UX wire-framing, UI design, and UI development of the B2B sales acceleration web application. Developed chrome extensions using Javascript.
- Conducted manual development testing by writing and documenting critical functional areas.
- Improved usability and created a subscription page using A/B testing, resulting in increased subscribers. Developed dynamic pages, optimised SEO, and structured pages for adapt.io applications.

### Associate Developer

**Owler India Private Ltd, Coimbatore, India** *(Oct 2014 - Mar 2017)*

- Developed pixel-perfect PSD to HTML conversions, ensuring W3C standards, SEO optimisation, and improved page performance.
- Collaborated with middleware engineers for seamless integration and conducted A/B testing using Optimizely.
